

## Job Description

### Technology at Dream11:

Our tech team is the core of Dream11's mobile-first cross-platform (desktop + mobile PWA, android & iOS) product serving more than 4 Crore users with over 10 million rpm (requests per minute) at peak concurrency. Our tech stack is hosted on AWS and is built on Cloudfront / AWS API Gateway, NGINX, [Node.js](#) / Java, Redis / ElastiCache and MySQL / Cassandra as our end to end stack. Besides these, we heavily use MongoDB, Kinesis, Kafka, RabbitMQ, Spark, Redshift and other cutting edge tech to keep improving Dream11's performance. As a data-driven team, we also use R, Python and other big data technologies for Machine Learning and Predictive Analytics.

### Your Work

- Handle teams across functional testing, automation, performance testing for all the projects
- Manage a team of SDETs to resolve ambiguities and help create robust and scalable test environments.
- Setting up automation deployment process and keeping an eye on code development process to reduce errors in production before deployment
- Evaluate and analyze application behavior and data for potential software issues like security, performance etc.
- Report issues found during testing and get them fixed from respective team and work collaboratively with other testers, developers, and stakeholders

### MUST have:

- 6+ years of experience in automation testing (Web and Mobile) and hands-on experience in Selenium Test Automation
- Experience in positions with increasing responsibilities including product quality, senior leadership and strategic planning
- Tested Web2.0 based applications
- Should have knowledge of Database and SQL Queries
- Experience with Agile / Scrum methodologies
- Experience on mobile testing tools like- Appium, Robotium, etc

### Bonus:

- Exposure in security/performance testing
- Being a die-hard Cricket and/or Football Fan

**About us:**

*Dream11* is India's Biggest Sports Gaming platform with 4 crore+ users playing Fantasy Cricket, Football, Kabaddi and NBA. It is a Game of Skill that offers Indian sports fans a platform to showcase their sports knowledge. Fans can create their own team made up of real-life players from upcoming matches, score points based on their on-field performance and compete with other fans.

Dream11 helps sports fans increase their engagement and connect deeper with the sport they love by being a team owner, not just a spectator. Dream11 is also the Official Partner of the top sports leagues in the world such as the Hero CPL, Hero ISL and NBA.

A Series D funded startup, Dream11 was founded in 2012 by Harsh Jain and Bhavit Sheth. Kalaari Capital, Think Investments, Multiples Equity & Tencent are the marquee investors in Dream11.

Dream11 has been ranked #9 among India's Great Mid-Size Workplaces - 2018.

Our Dream Team of 150 has been the engine of Dream11's exponential growth over the years. And now, we're looking for smart, self-motivated, passionate and skilled doers who can bring their A game to the table. If you are open to learning and unlearning and are driven by the desire to excel, Dream11 is just the place for you.

**What is the Dream11 family like?**

At Dream11, we don't have employees, we have Dreamsters.

Dreamsters you can trust. Dreamsters who care deeply about you. Dreamsters who are intelligent, hard working, fun to be with and respect each other. We are a diverse team united by a common purpose: to make every game exciting for all sports fans.

**What we promise?**

An amazing stadium-like environment that you will love. A place where experiments and learning never stop. A place without micromanagement and bureaucracy. An opportunity to create an impact from day 1.

Come join India's leading sports tech company. The grass is literally greener in our field.

**Our Captains:**

- Harsh Jain (Co-Founder & CEO; <https://www.linkedin.com/in/harshj22> )

- Bhavit Sheth (Co-Founder & COO; <https://www.linkedin.com/in/bhavitsheth> )
